

ITEM	MODEL	DESCRIPTION
1	Rohde & Schwarz RBU 207.4010.03	1 kW DUMMY LOAD / attenuator (40dB) specified from DC to 1 GHz. R&S Dezifix plug cables to N connectors using RG214. 36kg
2	BIRD 4391 RF power analyst	Uses 43 series elements. Displays W CW, PEP, dBm, VSWR and return loss
3	BIRD 4314 RF power meter	Bird 43 with PEP module. AC cable missing and PEP function untested. Works fine as a standard type 43 meter
4	BIRD inserts	10D 200-500MHz 10W; 25C 100-250MHz 25W; 25D 200-500 MHz 25W; 500B 50-125 MHz 500W (2off); 50-125MHz 10kW PEAK MODE
5	BIRD 4381-050	DC injector for 4391 calibration
6	HP 8657B	Signal generator 100 kHz – 2060 MHz. Attenuator down to -143 dBm. 2 available.
7	Schaffner NSG1025	Fast transient burst simulator with CDN125 capacitive coupling clamp. 1 owner
8	MiniZap MZ15/EC ESD simulator	Air and contact discharge. Complete in carry case with PSU and accessories. 1 owner
9	Schaffner CDN 801-6 M3	RF voltages. IEC mains EUT connectors. Rated at 250v / 10A 50Hz-400Hz
10	Farnell H60/25	DC PSU. 0 - 60v at 25A. 60kg
11	HP 334A	Distortion meter
12	RACAL 9083	Two tone signal source
13	HP 4815A	Impedance meter with working probe. 500 kHz - 1.5 MHz range faulty, but works fine using an external LO. Additional meter for spares
14	ICOM SP-38	New unused speaker. 2 available
15	AOR 7030 PLUS	HF receiver. With PSU, remote and manual. Good working condition
16	Aim TTI PSA2702	1 – 2700 MHz hand held spectrum analyser. TTI carry case. Very little use, as new
17	HP 432A, head and cable	Microwave power meter
18	HP 8640A	0.5 – 1024 MHz Signal generator. Excellent cosmetic condition. Doubler fitted. Stiff band change switch. Plus non worker for spares
19	Eddystone 940	HF receiver. Beautiful condition. Original packing box. Eddystone plinth speaker
20	HP 8683B	2.3 – 6.5 GHz signal generator
